- Private landscaped gardens with seating areas, water features, greenhouse and raised planting areas

Complete Care

We are passionate about our commitment to excellence and as such our aim is to provide person-centred and compassionate care to every client.

Residential Care

Our suites are designed for residents to enjoy their own private accommodation within small living groups. This enables residents to maintain independence whilst at the same time ensuring 24 hour care is available and at hand when needed.

Respite Care

Respite care is helpful when people need a short break away from their home. Alternatively they may be uncertain about moving into a care home permanently, or require convalescence following hospital treatment.

We will always seek to accommodate various lengths of stay, ensuring each client's expectations are met whilst they are living at The Manor House.

Dementia Care (Chesters Suite)

We recognise the special needs of people with dementia and other memory impairments.

Our single storey Chesters accommodation has been specifically designed to provide luxurious surroundings that are homely, safe and stimulating.

Our staff are specially trained to help manage the unique needs of residents with varying degrees of dementia and at all times we ensure our care delivery remains person-centred.
