Complete Care

Our aim is to provide individualised and complete care within a homely setting.

Residential Care

Our suites are designed for residents to enjoy their own private accommodation within small living groups.

This allows residents to maintain their independence whilst at the same time ensuring 24 hour personal care is available and at hand when needed.

Dementia Care

We recognise the special needs of people with dementia and other memory impairments.

Our Chesters accommodation has been specially designed to provide surroundings that are homely, safe and stimulating.

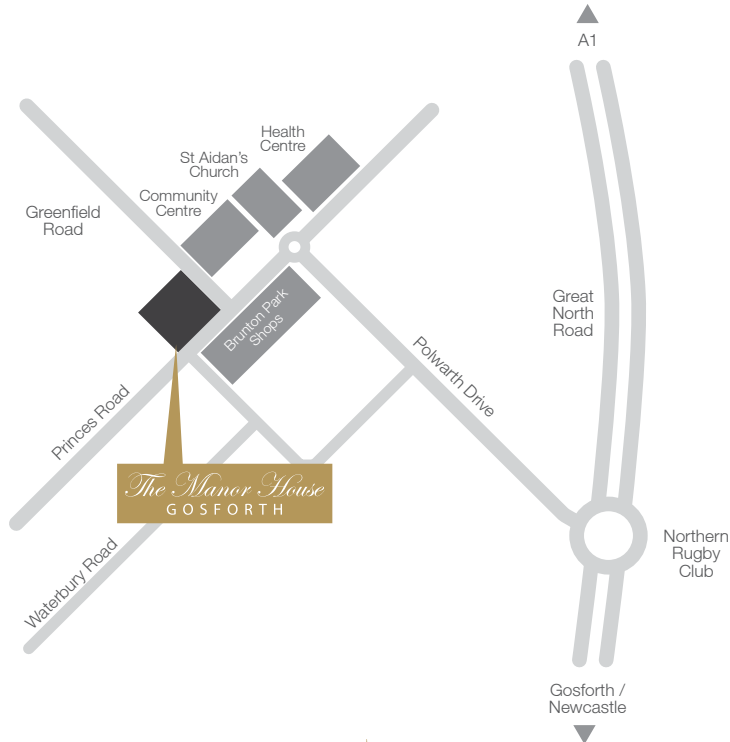

Our staff are specially trained to help manage the unique needs of residents with varying degrees of dementia and at all times we ensure our care delivery remains individualised to the needs of each resident.
